Pamela G. Frank, VP, Gabel Associates; David Schatz, Nicholas Meyers, Javier Hurtado, License #17327, and Steve Young, License #17432, Solar City, appeared before the Board to discuss the process of submitting electrical plans to municipalities.

Mr. Meyers stated Solar City is one of the largest companies involved in solar development. Mr. Meyers also stated the company has been in New Jersey since 2012 and most of the employees within the state are licensed installers.

Mr. Meyers stated we would like to advocate the use of a digital seal in the submission of permits. Mr. Meyers also stated the biggest issue is the length of time it takes for our license holder to stamp the project one permit at a time.

June 8, 2016

Mr. Meyers further stated if the licensee were digitally stamping the permits, the licensee could spend more time on the job sites.

Mr. Hurtado stated Solar City has four offices in New Jersey and he must visit each individual office to stamp the permit.

Mr. Schooley stated the problem is not with the permit application, it is the process the licensee must go through to get a permit approved. Mr. Schooley also stated the process will not be any quicker by acquiring a digital seal. Mr. Schooley further stated Permit applications can be signed and sealed and mailed to the municipality; or an employee can deliver the permit application to the municipality. Mr. Schooley stated he can understand the concern in regards to digitally sealing drawings for the professional engineer. Mr. Schooley also stated he is not convinced that this is an issue.

Mr. Meyers stated that the licensee does not have to physically go to the various townships if digitally sealing permits was an acceptable practice.

Mr. Papademas asked whether or not permits can be completed without the licensee's knowledge.

Mr. Meyers stated the software is linked only to the licensees' computer and only the licensee has access to that computer.

Mr. Meyers also stated Mr. Hurtado can be on the job site, digitally sign and seal a permit, and send it to the municipality electronically.

Mr. Meyers further stated that there are multiple licensed electrical contractors on each job site. Solar City employs eight licensed electrical contractors and 20 qualified journeyman.

Mr. Schooley stated if a licensee has a dispute with the company he endorses, he takes his seal and advises the Board he is no longer the licensee for that particular company.

Mr. Flaherty asked how can the Board be reassured that this third party digital company is no longer utilizing the licensees signature and pressure seal should the licensee leave the company.

Ms. Frank stated the individual who has the expertise regarding digital security would be able to provide that information to the Board. Ms. Frank also stated the goal is to help the municipality be more efficient and less burdensome with paperwork.

June 8, 2016

Mr. Schooley asked that any additional information regarding the Board's concerns be sent to them for their review.

\*\*\*\*\*

Ms. Tucker stated that there is nothing to report to the Board.

\*\*\*\*\*

The Board reviewed applications for the licensing examination to be administered by PSI Services, LLC. Twenty-five (25) applications were approved.

\*\*\*\*\*

Motion made by Mr. Constantinos Papademas and seconded by Mr. Gino Pasqualone, and unanimously passed, to go into Executive Closed Session to consider and to review consumer complaints, investigative reports and other information received pursuant to the Board's investigative authority in order to determine whether violations of the law, including Board regulations have occurred. The results of the deliberations will be made known when and if the Board determines to initiate disciplinary action or other law enforcement action.

Meeting adjourned at 2:00 P.M.

An Appointment and Business Meeting is scheduled for Wednesday, July 6, 2016, at 9:00 A.M.

Respectfully submitted,

Philameana L. Tucker  
Executive Director
