May 8, 2019

Rachel Glasgow, Regulatory Analyst, discussed with the Board on-line continuing education courses.

Mrs. Glasgow stated most of the Boards that allow on-line continuing education do not recommend the software that is to be used by the instructor. Mrs. Glasgow also stated the Board can require that the sponsor ensure attendance, offer interactive courses, and limit the number of on-line credits.

Mr. Flaherty stated he feels sponsors should utilize a software program that has facial recognition and will restart the course should the licensee walk away from the computer.

Mrs. Glasgow stated she will research the other Board's regulations concerning continuing education.

Mr. Schooley stated that the nine hours of code changes and the one hour of laws, rules, and regulations should not be an on-line course and should be taught in a class room environment.

Mr. Flaherty stated that there are certain training courses, such as OSHA courses, that are only available on-line.

Mrs. Glasgow stated that the comment period regarding the Pre-proposal concerning Power over the Ethernet ended on January 4, 2019. However, even though we generally accept late filed comments, the Board has received approximately forty to fifty additional comments. Many of these very late comments are of a similar template letter. Mrs. Glasgow also stated that these recent comments have been referred to the Committee.

Motion made by Mr. James H. Flaherty and seconded by Mr. Constantinos Papademas, and unanimously passed, that as of this date, no further comments will be accepted by the Board.

May 8, 2019

Mrs. Glasgow advised the Board that Assembly Bill A-2810 concerning state supervision was passed on February 21, 2019; however the governor has not enacted the bill into law.

Mrs. Tucker stated that a letter dated April 16, 2019, was received from an applicant who recently failed the business and law portion of the examination by one point. The applicant is requesting that the Board consider a similar examination he passed in the State of Connecticut which was also conducted by PSI.

The Board directed that a letter be sent to the applicant informing him the Board does not have reciprocity and because laws are different in each state, he must take and pass the business and law portion of the examination.

The Board reviewed applications for the licensing examination to be administered by PSI Services, LLC. Six (6) applications were approved.

Motion made by Mr. Gino Pasqualone and seconded by Mr. Constantinos Papademas, and unanimously passed, to go into Executive Closed Session to consider and to review consumer complaints, investigative reports and other information received pursuant to the Board's investigative authority in order to determine whether violations of the law, including Board regulations have occurred. The results of the deliberations will be made known when and if the Board determines to initiate disciplinary action or other law enforcement action.

Meeting adjourned at 3:00 P.M.

An Appointment and Business Meeting is scheduled for Wednesday, June 12, 2019, at 9:00 A.M.

Respectfully submitted,
