Rachel Glasgow, Regulatory Analyst, appeared before the Board to discuss drafted language which creates a temporary license for nonresident military spouses for the Board of Examiners of Electrical Contractors and for the Fire Alarm, Burglar Alarm and Locksmith Advisory Committee

Mrs. Glasgow stated it was recommended that this language be drafted for those applicants who are applying for the temporary license, but do not have the requisite two years experience immediately preceding the submission of the application.

Ms. Glasgow also stated she has mirrored some of the language in N.J.A.C. 13:31-2.5 for the Board's consideration as follows:

N.J.A.C. 13:31-2.7(b) (3) Has been actively working in the electrical field for at least two of the five years immediately preceding the date of application for the temporary courtesy license, for which purpose relevant full-time experience in the discharge of official duties in the Armed Forces of the United States or an agency of the federal government shall be credited in the counting of years of service.

(i) the Board may require a nonresident military spouse who has not been actively working in the electrical field in another jurisdiction during the two years immediately preceding the application to undergo additional training, testing, mentoring, monitoring, or education as the Board determines are necessary to assure that the applicant practices with reasonable skill and safety. In making its determination whether the applicant must undergo additional training, testing, monitoring, or education, the Board shall consider the following factors including, but not limited to:

- (1) Employment history;
- (2) Professional history;
- (3) Actions affecting the applicant's privileges taken by any institution, organization, or employer related to the practice of electrical contracting or other professional or occupational practice in New Jersey, any other state, the District of Columbia, or in any other jurisdiction; and

November 4, 2015

(4) Civil litigation related to the practice of electrical contracting or other professional or occupational practice in New Jersey, any other state, the District of Columbia, or in any other jurisdiction.

Ms. Glasgow also stated that the same concept applies to whether or not continuing education required. Therefore, Ms. Glasgow stated she has mirrored some of the language in N.J.A.C. 13:31-2.6 for the Board's consideration as follows:

N.J.A.C. 13:31-2.7(b) (5) Has satisfied any continuing education requirements in the jurisdiction meeting the requirements of (b)2, where he or she holds a current license, registration, or certificate to work in the electrical field and, at the discretion of the Board, completes such continuing education hours or credits as may be required by the Board within the time frame the Board may establish; and

(i) In making its determination whether the applicant must complete additional continuing education hours or credits, the Board shall consider the following factors including, but not limited to:

- (1) Employment history;
- (2) Professional history;
- (3) Actions affecting the applicant's privileges taken by any institution, organization, or employer related to the practice of electrical contracting or other professional or occupational practice in New Jersey, any other state, the District of Columbia, or in any other jurisdiction; and
- (4) Civil litigation related to the practice of electrical contracting or other professional or occupational practice in New Jersey, any other state, the District of Columbia, or in any other jurisdiction;

(b) (6) Completes a 10 hour course of study relating to the most recent edition of the National Electrical Code (Code), nine hours of which shall pertain to the Code and one hour of which shall pertain to applicable State statutes and rules. The course of study shall be provided by a Board approved continuing education sponsor.

Motion made by Mr. James H. Flaherty and seconded by Mr. Joseph F. Cantalupo, and unanimously passed, to approve the drafted language as recommended.

\*\*\*\*\*

November 4, 2015

Letter received August 12, 2015, from Charles Z. Hauser, applicant, concerning the difficulties he encountered on the day he took the electrical contractor's examination.

The Board also reviewed the response received from Alon Schwartz, PSI, concerning this matter.

\*\*\*\*\*

Ms. Widrich stated that there is nothing to report to the Board.

\*\*\*\*\*

The Board reviewed applications for the licensing examination to be administered by PSI Services, LLC. Eleven (11) applications were approved.

\*\*\*\*\*

Motion made by Mr. Joseph F. Cantalupo and seconded by Mr. Constantinos Papademas, and unanimously passed, to go into Executive Closed Session to consider and to review consumer complaints, investigative reports and other information received pursuant to the Board's investigative authority in order to determine whether violations of the law, including Board regulations have occurred. The results of the deliberations will be made known when and if the Board determines to initiate disciplinary action or other law enforcement action.

Meeting adjourned at 2:00 P.M.

An Appointment and Business Meeting is scheduled for Wednesday, December 2, 2015, at 9:00 A.M.

Respectfully submitted,

Philameana L. Tucker  
Executive Director
