Burzichelli, Deputy Speaker, New Jersey Senate and General Assembly, on behalf of their constituent regarding the cost of Continuing Education Courses.

The Committee unanimously recommended that the letter drafted by DAG Provost be sent to Senator Sweeney and Assemblyman Burzichelli advising them that pursuant to the Electrical Contractors Licensing Act of 1962 all licensed electrical contractors are required to complete 34 hours of continuing education for each renewal cycle as a condition for renewal. The hours of continuing education per triennial renewal cycle was increased to 34 hours by the Legislature in an amendment to the statute in 1999 which the Board merely enforces. The Board does not have any authority over the amount charged by the providers of such programs.

The Committee unanimously recommended that a letter be sent to Mr. Paris directing him to the Board's website address so that he may obtain its Laws, Rules and Regulations. Additionally, Mr. Paris will be advised that the "racks" or any other portion of the photovoltaic system that is non-electrical does not need to be installed by a licensed electrical contractor who holds a business permit. However, an electrical contractor is permitted to do work that is incidental to the installation of the photovoltaic system.

According to the Continuing Education Requirements, Continuing Education Courses must be sent in by the Sponsor/Instructor, and must be pre-approved by the Board in order for the licensee to receive credit.
