The game named above is hereby granted a Certification of Permissibility for operation in New Jersey pursuant to the provisions of the Amusement Games Licensing Law, N.J.S.A. 5:8-100 et seq. ("Law"), and the regulations promulgated thereunder, N.J.A.C. 13:3-1.1 et seq. ("Regulations"). This Certification of Permissibility is based upon information supplied by the applicant at the time of application for certification. The game must be operated in accordance with the Law and Regulations, the specifications submitted by the applicant and the conditions set forth in this certification. Any modification of the specifications as submitted at the time of application or the conditions set forth herein shall immediately void the Certification of Permissibility for any game so operated.

It is unlawful to license or operate any amusement game in the State of New Jersey without a valid Certification of Permissibility or in a manner not in accordance with Certification of Permissibility issued for the game. This Certification of Permissibility contains three pages. This is page 1 of 3.

DESCRIPTION

The Rescue "1" redemption game is a single player noncompetitive arcade game. The said game consists of twelve (12) square targets, a water gun and game clock. The twelve (12) square targets are located at the back plain of the play field which represent windows. The player utilizes a water gun which is located at the player position to shoot a stream of water at the window targets when they randomly illuminate. Every time the player successfully shoots the illuminated window the player is awarded ten (10) points. Play continues until the game clock reaches zero. The player is awarded tickets based upon the displayed pay out schedule located on the game. If the player's score exceeds the "BONUS" score which is displayed on a LCD screen located at the top marquee, the player is awarded that displayed value. All awards are dispensed as tickets to the player for prize redemption.

CONDITIONS

- 1.) The maximum price to play shall not exceed values set forth in N.J.A.C. 13:3-3.4.
- 2.) Payout must occur immediately in the form of tickets redeemable for prizes.
- 3.) Game shall be clean and free of debris.
- 4.) Game shall be installed and maintained according to manufacturer specifications.

The approved operating software version is listed below:

Software Identification

The operation of the Puppy Jump electronic redemption game is controlled by software stored on a micro controller which is secured on the main Central Processing Unit (CPU) board. The Puppy Jump software version 12-19-2013 can be viewed on the LED screen located at the top of the game cabinet during a power cycle.

This certification is not a license to operate the captioned gambling device. The device may only be operated in a location specifically approved for the operation of amusement games pursuant to the Law and Regulations.

The Commission reserves the right to suspend, revoke or modify this certification upon notice to the manufacturer and/or applicant.
